Cost: \$4426

Led By: Janet Hays

Access to prime dive sites is guaranteed! From Cairns we focus exclusively on the superior Ribbon Reefs north of Cooktown including the Cod Hole. Here, the marine life is at its best, you will see spectacular concentrations of pristine corals, colorful tropical fish, schooling pelagics and shark action. Since commencing Minke Whale Expeditions in 1996 Mike Ball Dive Expeditions have had a 98% success rate. The largest pod seen was 28 whales, the longest encounters was 10 hours. Minke whales are social creatures and are often seen traveling in pods. Communication between whales is a series of grunts, moans and rasping sounds. Dwarf Minkes are renowned for their curiosity and approachability.
