

*Turneffe Island*  
**BELIZE**  
**July 17-24, 2010**

Summertime, and the livin' is Belizey. The culture is rich and there are coral reefs in translucent seas to dive. There will be a kaleidoscope of coral, fish, dolphins and turtles to photograph from the largest of only 4 coral atolls in the Western Hemisphere. The marine life on Turneffe Atoll is an array of aquatic life and coral formations rarely found in the Caribbean, from small tropicals to large pelagics.

We will be staying at the incomparable Turneffe Island Resort, a premier resort hidden away on its own very private 12 acre tropical island 30 miles offshore from the busy town of Belize City. The superior accommodations ring the perimeter of the island so as to catch the cool ocean tradewinds year round with views of gorgeous white sandy beaches. Inclusive will be all meals and additional hors d'oeuvres that you may never forget, with a spectacular array of Belizean and Caribbean cuisine.

Diving at Turneffe Island Resort is an adventure that leaves even the most experienced divers feeling absolutely pampered.
